To whom it may concern:

I have a persistent unwanted fax problem that I hope you can help me with.

Several different offers for different services come each week with the same fax-back number and removal number. I have called the removal number on several different days and at different times, but there is never an answer. I have successfully faxed the fax-back number twice with instructions to remove my fax number from their data base. I never received a response, and I continue to get these offers that I don't want. There is never any any business name or phone number ever given in any of these faxes, making it impossible for me to contact this company.

Your help with this matter would be greatly appreciated. Constantly paying for ink and paper for my fax machine is expensive for a small business like mine; not to mention the time and frustration of trying to deal with this annoying type of advertising.

I have saved several copies of the faxes I have recieved from this particular company, and will send them to you at your request.

The removal number included on these faxes is:

800-838-7573

The fax-back number included is:

972-692-5377

My fax number is (214) 821-6472, and my phone number should you wish to contact me is (214) 821-6477.

Thank You,  
George Miller
